Education

2015 - 2017 — **Master's Degree Computer Engineering** — University of Leuven (Belgium)
Specialization: Artificial Intelligence
Thesis topic: Natural Language Understanding in Smart Homes

2021 - 2025 — **Bachelor's Degree Computer Engineering** — University of Leuven (Belgium)
Minor: Science

2006 - 2011 — **Science & Math** — Sint-Jan Berchmanscollege (Belgium)

Experience

2025-
2024-Sept — **Reform** — DevOps Engineer
Maintaining cloud infrastructure on Azure, finetuning CI/CD (continuous integration/continuous deployment) pipelines, and ensuring our AI models are deploying and operating correctly.

2024 - Jul
2024 - Mar — **Lemon Companies** — DevOps Engineer
Helping to shape the DevOps way of working along with maintaining and setting up our cloud infrastructure on AWS.

2024 - Apr
2022 - May — **In The Pocket** — Cloud / SRE Engineer
Maintaining cloud infrastructure, Nexus, EKS clusters, and CI/CD (continuous integration/continuous deployment) pipelines for millions of IoT devices running on Linux on AWS/Google Cloud in an Agile way of working.

2022 - May
2021 - Nov — **Credix** — Smart Contract / DevOps Engineer
Writing and deploying Rust programs on the Solana blockchain and setting up/maintaining infrastructure on GKE running in Google Cloud.

2022 - Jan
2021 - Feb — **Chatlayer** — MLOps Engineer
Training deep neural network language models on specialized Linux environments and maintaining infrastructure for model deployment on Kubernetes with Argo Events/Workflows.

2021 - Mar
2017 - Jul — **Rombit** — ML / DevOps / Software Engineer
Developing a stream architecture with Kafka Streams, a React application, computer vision on Jetson Nano running on Linux, and also maintaining our Kubernetes clusters together with our infrastructure on AWS.

Projects

2024 - Feb
2020 - Jul — **Numerai Payouts** — Lead DevOps Engineer
Building and deploying an iOS/Android app with Flutter, notifications through Firebase, and maintaining backend infrastructure on Kubernetes running in Google Cloud. Numerai is an AI-driven hedge fund.

Sidenotes

Medium — I occasionally write on Medium
Numerai — Competing on Numerai (artificial intelligence driven hedge fund)
Kaggle — I also sometimes participate in Kaggle competitions
